INTRODUCTION

Mucky Pupz is located in Burstow, near Smallfield, Horley

At Mucky Pupz we provide complete care for your much loved pooch, giving him a home from home experience along with activities to keep him mentally and physically challenged. It is an ideal opportunity for dogs to really stretch their legs in a safe environment, meet other dogs and just enjoy being a dog for the whole day! Whilst here, they can take advantage of our grooming services and return home feeling tired, fulfilled, looking and smelling great!

We run a breakfast club from 5:00am and an after-school club until 10:30pm, with our usual operating hours being between 7:00am until 6:30pm. We also have a special scheme to help those experiencing financial hardship. We are fully licensed by Tandridge District Council, insured: public liability and key insurance and our staff are DBS checked; all available to view on request.

We have 4 acres of secure greenland, which the dogs have supervised access to. This area is divided up into various zones to allow for different activities with smaller groups throughout the day. We have agility, splash pools and ball pools in the summer, along with an indoor softplay area. Dogs have access to quiet areas should they prefer to rest.

We reserve the right to refuse any bookings where dogs are considered unsuitable for our services

Homeboarding takes the same format as daycare, the only difference being that some will stay over for the night. We do not have kennels and all dogs live with us as part of our extended family. Overnight, they will have their own bedroom with a single bed, radiator, radio/tv; unless of course they would prefer to be with someone, in which case they can do just that!

Our service is simple and easy to manage with our online booking system. You are able to request services online and access your account 24hrs a day.

DAYCARE

Time to just be a dog!

A true home from home experience, our daycare pupz have exclusive use of our 4 acre property and specially designed doggy gardens. The whole day is planned around each and every dog we have with us; we cater for all ages and characters and are sympathetic to the different needs of each one. They are given the opportunity to play, sniff, chase, jump and rest; basically to just be a dog for the whole day with cuddles and treats thrown in free of charge!

Each day is structured which helps the dogs to settle and to know what to expect during their stay with us. Routine is a comfort for all of us, and dogs are no exception.

Your dog will have fun socialising, learning new things and being part of a pack, which most dogs never have the opportunity to do. It is the most natural thing in the world for them, and often dogs behave quite differently from the way their owners expect.

We operate much like a nursery, and owners pay for a place at daycare. It enables dogs in our care to make strong bonds with their doggy friends and ensures a more stable pack. We can get to know the dogs very well which makes our job a little easier in making sure that we are understanding body language and conversations that are taking place. It also means that we are not under pressure to fill spaces.

BOARDING

Home from Home

We provide cage free, home from home boarding for your dogs and puppies. You can then enjoy your holiday or business trip knowing that they are safe and well.

Dogs are probably affected by your absence more than most other animals, and kennels can be a further source of anxiety. We provide a similar environment to your own home, with lots of fun, run arounds, cuddles and treats. We have designated, secure areas for dogs only. We are fully insured should the unthinkable happen, but we will look after your dog as if he/she were our own.

Dogs who are boarding are provided with the same stimulating care that our daycare dogs receive. The only difference being your dog will stay over each night for the duration of your booking. We respect your existing sleeping arrangements and try to mirror that wherever possible. We cater for all ages and characters and find that some of our residents prefer just the morning routine and to spend the afternoon snoozing. The choice has to be your pupz; this is especially true for older dogs and for those who aren't high energy.

You will also benefit from regular updates as to how your little one is doing. We send daily journals via email, with pictures, all stored in your online account. We find that this is a big comfort for those owners who hate being parted from their dogs although they will probably be having more fun than you are!

Please be sure to check for current Government COVID restrictions and consider how they might affect your booking with us. If there is a possibility your return could be delayed or that you may be required to quarantine on your return, you are able to reserve up to 10 days additional care at a reduced rate; (please check website for guidelines).

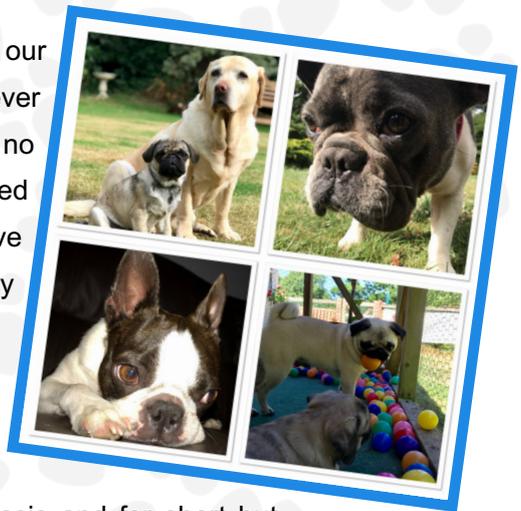

TRAINING

Basic Obedience Training

We have many puppies that join us once their vaccinations are complete and many are with us almost every day. Puppies learn very quickly and it's essential that they receive a basic level of training during their first few months to ensure they become good citizens and know exactly what is expected of them.

Whether a dog is receiving formal training or not, every dog in our care is expected to behave and is corrected whenever necessary. The pack is instrumental in this as there can be no greater teacher than other dogs! However, as owners, we need to teach them our language and for them to learn how to live with us, what we expect from them and to behave appropriately in social situations.

Your dog will learn all basic commands and you will be provided with a weekly summary as to how your dog is progressing. Formal training is delivered on a one to one basis and for short but intense sessions. This is to ensure we make steady progress and that your dog doesn't become bored. Puppies attention span tends to be short and training needs to remain fun. Outside of the one to one sessions, commands are constantly reinforced and rewarded, until it becomes second nature.

"A dog is the only living thing that loves you more than it loves itself"

BEHAVIOUR MODIFICATION

They can't be good all of the time!

Much like children, occasionally dogs will learn unwanted behaviours and we need to correct them as soon as possible. For the most part, dogs behave in a completely normal way given a certain set of circumstances, but it may not be a behaviour that is acceptable to us or to the owner.

On consultation with you, and taking into account any negative experiences your dog may have had, we can put a plan together that will address the unwanted behaviour. It is not so much unlearning a behaviour but learning a new way to behave in certain situations.

If your dog is spending much of his day with us in daycare, it needs to be educational, fun and full of structured exercise.

All dogs are given the opportunity to rest every afternoon and have free access during the day to water, shelter and warm beds.

The truth is, a tired dog rarely gets himself into trouble!

HOW DO WE COMPARE?

This isn't just a job to us. This is our way of life!

Our dogs are very important members of our family, and we are sure that yours are too!

We wanted to offer more than the average daycare! We understand the role that dogs play in your lives, especially during times of adversity. We take care of every aspect of dog ownership from scheduled veterinary visits that you are unable to attend, visiting owners in hospital (when permitted) or maybe extending your dog's stay at short notice due to unforeseen circumstances. We provide support to our owners and their dogs all year round; whatever life throws at you, we make sure that, at the very least, you won't be worrying about your dog.

*Prices are accurate as of August 2021 and are based on monthly daycare costings (£)
(20 sessions). Prices may be subject to VAT.*

- Places are limited. All services are subject to availability.

ADHOC CARE

At least 1 day per week

We do not offer daycare on an infrequent basis as it has a tendency to unsettle the pack and it isn't good for your dog if he is the newbie every time he visits. It is important that your dog is accepted by the pack, is able to make sustainable bonds within it and that his confidence isn't adversely affected. Every dog is therefore required to attend at least 1 day a week. *We do not accept dogs into daycare on a turn-up basis.*

Please check the website for pricing.

GROOMING

Cage free

We have a fully equipped grooming salon and provide exclusive services designed to help you stay in control of your dog's coat, health and well-being.

We have a play area attached to the salon, creating a lighter atmosphere and only one dog is groomed at a time. All dogs are given regular breaks to stretch their legs and have a play. We do not have appointments to work to and so are not under pressure to rush a dog through the groom. Every dog is different, and we will work at their pace.

Mucky Pupz are Happy Pupz!

Your dog will require a 2hr assessment before being accepted into our care. We cannot accept females into daycare or boarding if they are due to be, or are in season. We prefer all dogs in our care to be neutered. We make an exception where puppies are concerned, as long as there is an intention to neuter as soon as possible.
