Mucky Pupz Grooming Plans

for worry-free dog ownership

Life has challenges for everyone but being a pet parent shouldn't be one of them.

Grooming plans are provided to help with the cost of dog ownership, spreading the cost of grooming over a 12 month period.

Long coats, short coats, curly coats, wavy coats, sparse coats, thick coats and no coats, we've got it covered!

A smile is right under your nose!

I'm Daisy and I'm a Xolo (a Mexican Hairless with hair) but my brother, Yendor, is bald! We still need grooming just like any other dog.

Everything we do revolves around dogs, and we enjoy every possible moment with them. Mucky Pupz exists to fulfil our passion and to make your life as a pet parent as worry-free as possible.

The cost of living crisis has hit us all without exception, and like most small businesses, we have had to find new ways of providing the services our clients need at a price that is both realistic and affordable.

A little helping hand; spread your annual grooming cost into one, fixed monthly payment.

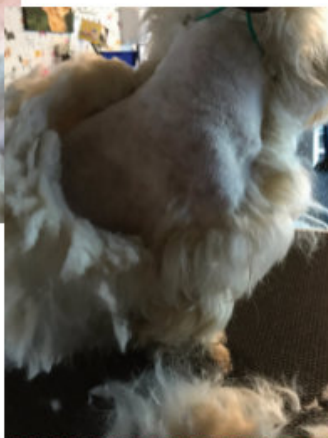

Keeping your dog well groomed is essential for their health and well-being and helps to keep your home, hair and odour free! Unfortunately, during times of adversity, dog grooming can often be one of the first things to be sacrificed.

Certain breeds need more grooming than others and some can be particularly prone to matting. Without regular grooming, mats can trap dirt and debris, can pull on the skin and cause pain and discomfort to your dog. It can also provide a breeding ground for bacteria and can cause skin infections. Often there is no alternative but to shave the coat. In extreme cases, it may be necessary for the coat to be removed under sedation by a veterinary surgeon.

Dirt & debris is caught in the coat and pulls on the skin.

Coat has felted and de-matting is not possible. The coat is removed much like a sheep's fleece.

Grooming Services

A personalised 'Grooming Plan' will ensure your dog stays clean, tidy and healthy and it is an opportunity for your dog to be regularly checked over for lumps, bumps and skin conditions.

Every dog has different grooming requirements according to their coat type and lifestyle. The amount of time an owner has available to bath and brush their dog in between visits to the salon will also vary.

Depending on your requirements, we will agree a grooming interval with you. As a guide, wool type coats require grooming no less than every six to eight weeks. If you like to keep your doodle's coat long, then they will need to be groomed every four to six weeks.

You may decide to alternate between a full groom one month, and a bath and brush-out or tidy-up the next. Whatever your preference, all services can be wrapped up into one, fixed monthly payment.

Grooming Plans will be made available to you once we have groomed your dog at least twice. This is to ensure that we can advise you correctly on caring for your dog's coat taking into account their willingness to be groomed, coat type, exercise routine, age and overall health.

A Groomer hates having to de-mat or shave a dog. If your dog doesn't look good when leaving the salon, then neither do we!

All grooming plans run for 12 months and you will be provided with your grooming schedule ahead of time. You can then stay in control of your dog's coat for one, fixed monthly payment.

Legs are extremely matted, restricting movement.

Things we have found in matted coats: grass seeds (which can track up the leg), sticks, thorns, ticks, brambles, chewing gum, paint, crisps, cotton buds & jelly beans; the list is endless!
